Last and Best Bid (LABB)

Last and Best Bidding

You have indicated that you wish to place a last and best bid. Bidders that wish to drop out of the auction have the opportunity before they drop out to make a last and best bid on any packages for which they remain eligible. Such bids may be of any amount (in thousand dollar increments) between the bidders previous high bid and the minimum acceptable bid.

If you continue and place a last and best bid, this will be the last round in which you will be permitted to place any bids. Are you sure you want to continue and place a last and best bid ?

Last and Best Bid (LABB)

[Add another Last and Best Bid \(LABB2\)](#)

Last and Best Bidding

Bidders may make up to two sets of last and best bids. The two sets of last and best bids must be submitted in a single round, but will be treated as mutually exclusive, as are bids placed in two separate rounds. Once last and best bids are placed, the bidder will not be permitted to place new bids or renew previous bids in any subsequent round. If a bidder chooses to submit two sets of last and best bids, then, for the remainder of the auction, the "solver" (computer software) will consider those two sets of bids. If a bidder chooses to submit only one set of last and best bids, then, for the remainder of the auction, the solver will consider this set of bids and the set of bids from the last round in which the bidder placed bids. The only other bids that would be considered in a round for a bidder that places last and best bids are provisionally winning bids from the previous round.
